Angel - thank you for responding, I apologize because I'm late in responding due to being out of the office. If I can get something set up for the week of Oct. 29th, that would be preferable.

Thanks - Anna

Hi Anna,

I just wanted to double-check with Gus Harb, who is our Commerce drafter, before emailing you back, but yes, my interpretation was that the IUB is required to collect the assessment on utilities until June 30, 2022, as HF 2502 does not alter the repeal of the section. Gus has confirmed this is correct. Please let me know if you have any questions at all. Also, would we be able to schedule some time to meet and touch base before session in the next couple of weeks to discuss any upcoming legislative proposals? Let me know what your availability is.

Thank you,

Angel

**Subject:** Assessment of funds for IA Energy Center and CGRER

Tim and Angel,

I wasn't sure who to send my questions to, since my questions come from language in the Standings Bill as well as current Code.

Under current Code, the assessment on utilities for IA Energy Center and CGRER sunsets on July, 1, 2022 (476.10A). From the language in Division XXII in HF 2502, a portion of moneys that would have originally gone to the Energy Center will instead go to the general fund for the years FY 19 - 21.

Is IUB required to collect any assessment during CY 2022?

Thanks,

Anna
